

# Jared Machado

Software Engineer

## SUMMARY

Creative, detail-oriented, software engineer with a deep interest in AI. Proven track record of creating and implementing successful front and back-end web applications. Looking to bring my skills to a tech company with global reach.

## WORK EXPERIENCE

### Software Engineer at 100devs, Los Angeles, CA

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using agile methodologies.
- Built semantically structured full-stack web applications optimized for performance using tools like Google Lighthouse and PageSpeed Insights.
- Maintained code quality by using code analysis tools such as SonarQube to identify and resolve issues.
- Achieved a high project completion rate by using SCRUM to manage projects and identify bottlenecks in the development process.
- Improved customer satisfaction by using surveys and feedback forms to identify user needs and preferences.

## RECENT PROJECTS

[Portfolio Website](#) - Website showcasing projects and about me!

[The Social Network](#) (Ejs, Bootstrap, PassportAuth, Mongodb, Node, Express, and Cloudinary) - Upload pictures to your feed, comment, and like posts, using Multer to upload. Store user information in Cloudinary and MongoDB, and employ password hashing for extra security!

Demo account: test@test.com

Demo Password: test2023

[OpenAi-Image-generator](#) (React, Nodejs) – OpenAi Image Generator app that uses the OpenAI Dall-E 2 API to generate images based on text input! This app allows you to enter a prompt and generate an image based on that prompt.

## VOLUNTEERING

### Synapse Summit | Tampa, FL

January 2023 — Present
